Increasing the size of the Fax Queue (CFAX400)

Product: Cfax400

Symptom: If you haven't done any housekeeping for a while, you may receive a message on QSYSOPR stating "File ATXQ is Full".

Resolution: Increase the size of ATXQ.

1. Answer any outstanding messages

2. End the CFAX400 subsystem
ENDSBS CFAX400 *IMMED

3. increase the size of the physical file
CHGPF FILE(CFAX400/AFAXQ) SIZE(xxxxxx *SAME *SAME)
Where xxxxxx is the new maximum size. (Default 10000, suggested 20000)

Note: Proper housekeeping is the preferred method of maintaining the size of the queue.
